

RIPE NCC ENUM Update

Anand Buddhdev
DNS Services Manager, RIPE NCC

Stable Operations

- RIPE NCC has operated this zone since 2002
- Query rate of around 0.5 q/s
- Zone signed in November 2007
- DNSSEC review after RIPE 58

Delegation Updates

- One new delegation since RIPE 57
 - Taiwan (886) on 19 November 2008
 - Total of 46 delegations now
- Two zones are secure and have delegation signer records in the zone
 - Poland (48)
 - Czech Republic (420)

Lameness in the ENUM Zone

- Data extracted from the lameness project
- 6 zones have at least one lame delegation
- 3 zones' delegations are all lame
