

LONAP Update RIPE58

6th May 2009, Amsterdam, NL

Facts

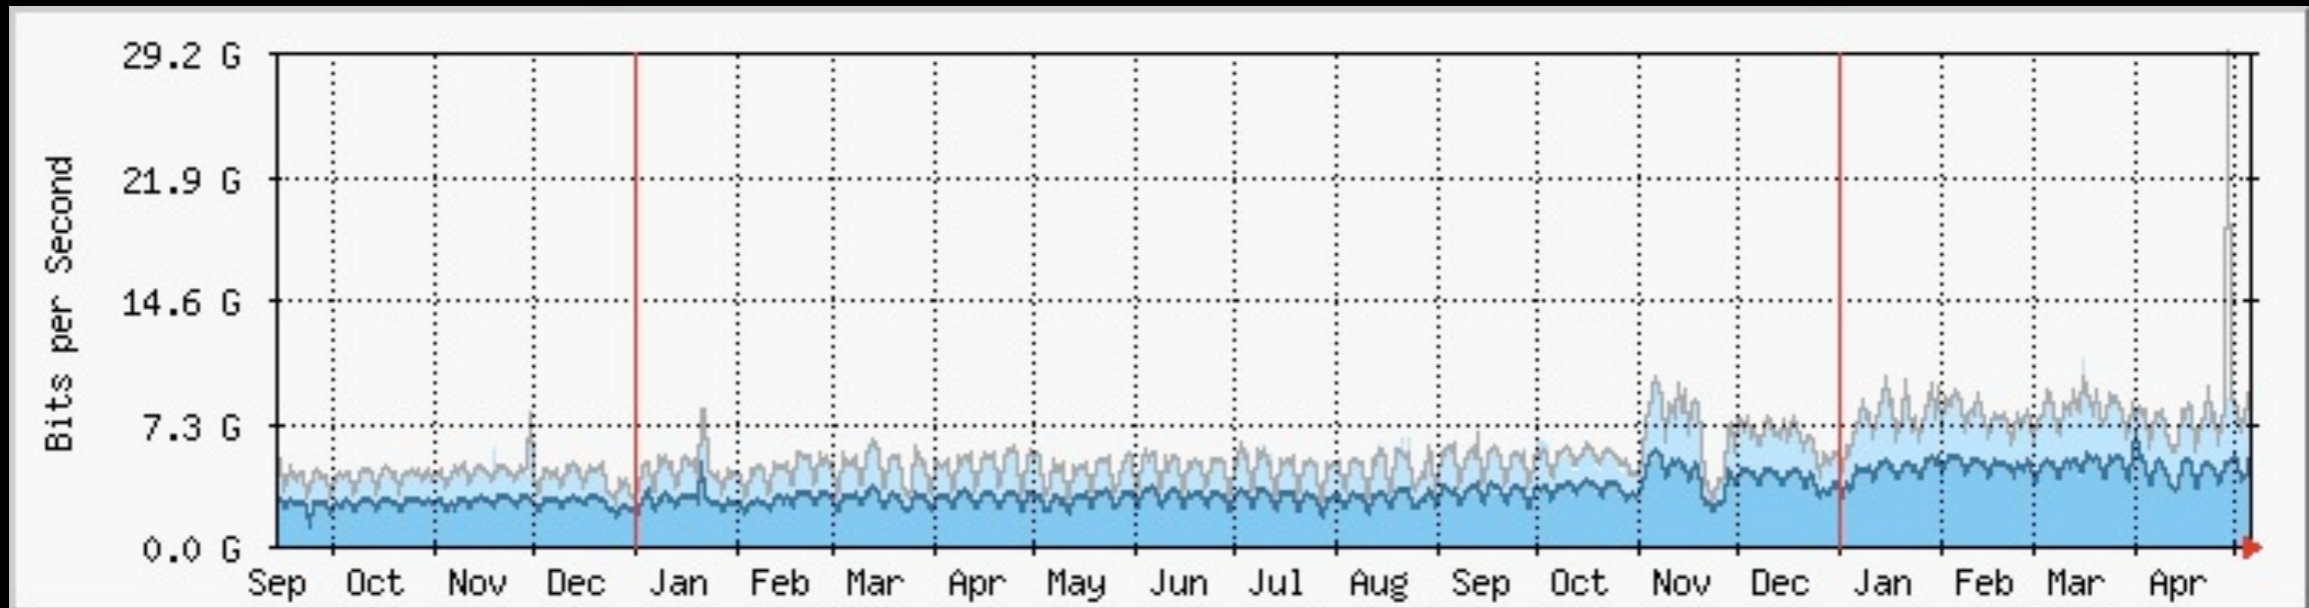

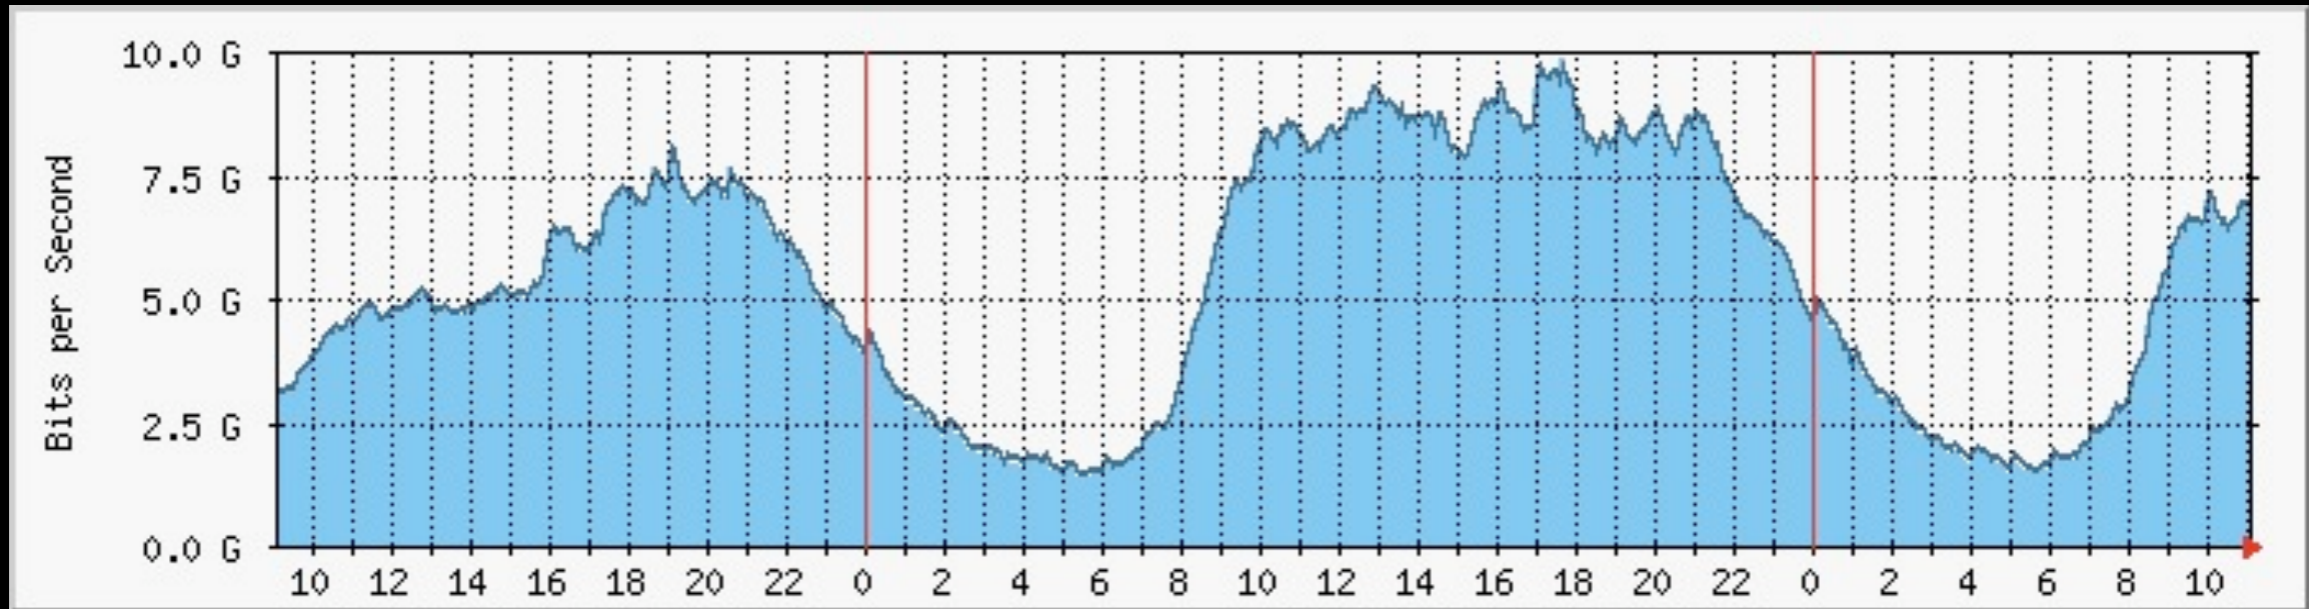

- Neutral, not-for-profit, community run and governed.
- 89 connected networks, ~10 in connection phase.
- Cisco 6500 based

Outages 2008/9

Outages 2008/9

- **This is because we strictly enforce our technical and security policies.**

Traffic

Yep, up and to the right

Projects

- Route Servers
 - Not Quagga - London already has some
 - OpenBGP - though some features missing.
 - BIRD
- New sites
 - Is actually lots of work before you even buy a switch and type conf t
- Increased interest in 10G ports

Thank you
